

products, or the production of certain polyhydric alcohols.

§ 1530.103 License eligibility.

(a) A raw cane sugar refiner, a manufacturer of sugar containing products, or a producer of certain polyhydric alcohols, that owns and operates a facility within the U.S. Customs Territory, is eligible for a license to participate in the Refined Sugar Re-export Program, the Sugar Containing Products Re-export Program, or the Polyhydric Alcohol Program, respectively.

(b) No person may apply for or hold more than one license, including a license held by an affiliated person.

(c) Notwithstanding paragraph (b) of this section, a person who owns one or more wholly-owned subsidiary corporations manufacturing sugar containing products or producing certain polyhydric alcohols, which would otherwise qualify for an individual license, is eligible for a consolidated license to cover the program transactions and other program activities of both the parent corporation and the subsidiary corporation(s). The program transactions and other program activities of the subsidiary corporation(s) covered by a consolidated license shall be treated as the activities of the corporation holding the consolidated license.

(d) Notwithstanding paragraph (c) of this section, each wholly-owned subsidiary manufacturing sugar containing products or producing certain polyhydric alcohols may establish a license for program activities instead of the parent corporation establishing a consolidated license. The sum total of license limits for the parent corporation and its wholly-owned subsidiary corporation(s) shall not exceed the quantitative limits established in § 1530.105 of this part.

§ 1530.104 Application for a license.

(a) A person seeking a license shall apply in writing to the Licensing Authority and shall submit the following information:

(1) The name and address of the applicant;

(2) The address at which the applicant will maintain the records required under § 1530.110;

(3) The address(es) of the applicant's processing plant(s), including any wholly-owned subsidiary(s) and plant(s) in the case of a consolidated license, and including those of any co-packer(s);

(4) In the case of a refined sugar product, the polarity of the product and the formula proposed by the refiner for calculating the refined sugar in the product;

(5) In the case of a sugar containing product, the percentage of refined sugar (100 degree polarity), on a dry weight basis, contained in such product(s);

(6) In the case of polyhydric alcohol, the quantity of refined sugar used producing certain polyhydric alcohols; and

(7) A certification explaining that the applicant is not affiliated with any other licensee, or explaining any affiliations, should they exist.

(b) A documentation agreement must be concluded with the Licensing Authority.

(c) If any of the information required by paragraph (a) of this section changes, the licensee shall promptly apply to the Licensing Authority to amend the application to include such changes.

§ 1530.105 Terms and conditions.

(a) A licensed refiner (refiner) shall, not later than 90 days after entering a quantity of raw cane sugar under subheading 1701.11.20 of the HTS, export or transfer an equivalent quantity of refined sugar if the entry results in a positive license balance.

(b) A licensed sugar containing products manufacturer (manufacturer) or a licensed polyhydric alcohol producer (producer) shall, not later than 18 months from the date of transfer of a quantity of refined sugar from a refiner, export an equivalent quantity of refined sugar as an ingredient in a sugar containing product if the transfer results in a positive license balance, or use an equivalent quantity of refined sugar in the production of certain polyhydric alcohols if the transfer results in a positive license balance, respectively.

(c) Notwithstanding paragraphs (a) and (b) of this section, licensees may receive credit for the exportation or

transfer of refined sugar, the exportation of a sugar containing product, or the production of certain polyhydric alcohols prior to the corresponding date of entry of raw cane sugar the date of transfer of refined sugar.

(d) Licensees are encouraged to submit monthly program transaction reports, but shall report no later than 90 days from the date of entry, transfer, export, or use.

(e) A refiner may enter raw sugar, or a manufacturer or producer may receive a transfer of refined sugar, in anticipation of the transfer or export of refined sugar (refiner), the export of sugar in sugar containing products (manufacturer) or the production of a polyhydric alcohol (producer) not to exceed the value of a bond or letter of credit, which must be established pursuant to §1530.107 of this part. The value of a bond or letter of credit shall not exceed the license limits established in this section.

(f) A refiner shall not exceed a license balance of 50,000 metric tons, raw value for the sum of all charges and credits.

(g) A refiner may enter raw sugar from Mexico and re-export, within 30 days of entry, refined sugar to Mexico without a charge against the refiner's license balance. If the refined sugar is not re-exported to Mexico within 30 days of entry, the license shall be charged the quantity that has not been re-exported.

(h) A manufacturer or a producer shall not exceed a license balance of 10,000 short tons, refined value for the sum of all charges and credits.

(i) A manufacturer's or a producer's consolidated license balance, or the sum of a parent company and wholly-owned subsidiary license balances if held separately, shall not exceed a license balance of 25,000 short tons, refined value for the sum of all charges and credits.

(j) For the purposes of the programs governed by this part, sugar is fully substitutable. The refined sugar transferred, exported, or used does not need to be the same sugar produced by refining raw sugar entered under subheading 1701.11.20 of the HTS.

(k) A licensee may use an agent to carry out the requirements of partici-

pation in the program. The licensee must retain ownership of and responsibility for the product until exported from the U.S. Customs Territory, to a restricted foreign trade zone, or used in the production of certain polyhydric alcohols, and must establish and maintain sufficient documentation, as agreed in the documentation agreement pursuant to §1530.110, to substantiate export of the product or the production of certain polyhydric alcohols.

(l) A license may be assigned only with the written permission of the Licensing Authority and subject to such terms and conditions as the Licensing Authority may impose.

(m) The Licensing Authority may impose such conditions, limitations or restrictions in connection with the use of a license at such time and in such manner as the Licensing Authority, at his or her discretion, determines to be necessary or appropriate to achieve the purposes of the relevant program.

§ 1530.106 License charges and credits.

(a) A license shall be charged or credited for the quantity of sugar entered, transferred, exported, or used, adjusted to a dry weight basis. Refiner quantities shall be adjusted to raw value, using the formulas set forth in paragraphs (a) (1), (2), and (3) of this section. Manufacturer and producer quantities shall be adjusted to 100 degrees polarity on a dry weight basis.

(1) To adjust the raw value for sugar with a polarization of less than 92 degrees, divide the total sugar content by 0.972 (polarization × outturn weight/.972).

(2) To adjust the raw value for sugar with polarization of 92 degrees or above, multiply the polarization times 0.0175, subtract 0.68, and multiply the difference by the outturn weight ((polarization × 0.0175)–0.68) × outturn weight).

(3) To determine the quantity of refined sugar that must be transferred or exported to equal a corresponding quantity of entered raw sugar charged to a license, divide the quantity of entered raw sugar by 1.07 (raw quantity/1.07).

(b) [Reserved]
